About Me

A passionate Mechatronics Engineering student at Manipal Dubai with a strong foundation in robotics, automation, and hardware integration. Known for hands-on project experience, including a 1st place win at IROS 2024 and active roles in international competitions like MATE ROV and ERC. Proficient in tools like ROS, Python, and Fusion 360, and skilled in both design and prototyping. I thrive in collaborative environments where innovative problem-solving and rapid iteration are key, and I'm driven by a deep curiosity for building intelligent machines that make a real-world impact.

Software Skills

- Python
- ROS
- MATLAB
- AutoCAD
- Fusion 360
- Solidworks

Hardware Skills

- Arduino
- Motor Drivers
- Soldering
- PCB Prototyping
- Multimeter & Oscilloscope Usage

Other Skills

- Teamwork
- Technical Documentation
- Project Management
- Problem Solving
- Public Speaking
- Rapid Prototyping

Projects

IROS 2024 – 1st Place Winner

2024

Developed a fully autonomous robotic system; led mechanical integration and sensor fusion.

Emirates Robotics Competition (ERC)

2025

Designed and tested a mobile robotic platform with advanced drive systems and color detection.

Gripper Project – Dubai Future Labs

2025

Building an intelligent robotic gripper capable of object recognition and manipulation.

MATE ROV 2025 – USA

2025

Engineering an underwater ROV with focus on control systems and buoyancy optimization.

Mubadala Competition 2025 – Support Team

2025

Supporting prototyping, testing, and technical documentation efforts.

Fighter Robot “Kuro” – Team Akira (Placed 3rd)

2025

Constructed a battle-ready robot for competitive combat robotics; handled mechanical design and chassis assembly. The competition was held in Malta by IEEE

Education

Mechatronics Engineering

2022 – 2026

Manipal Academy of Higher Education

High School

2020 – 2022

ASPAM Indian International School

Middle School

2008 – 2020

Leaders Private School

Languages

- English
- Hindi
- Malayalam
